6. Denial Letter C-72: Correction so that Denial letters will print the recipient address when printed / edited in CMS Net Legacy.

#### **CMS Net Web:**

1. SAR Client Information: Modification to the Client Information section on the SAR screen so that the current Program Eligibility period is displayed when there is a current and future pending period open on the case.
2. Enter SAR screen: Modified the database structure to capture the client county during the "Enter" SAR process rather than the "Authorize" SAR process.
3. SAR Business Rule: Added a business rule that to Deny, Delete or Cancel a SAR, the user's County / Regional Office must match that of the client during the service period.
4. Special Instructions Default: Modified system so that the following text will automatically display in the Special Instructions section of the SAR for clients that are assigned a 9N Aid Code: "This authorization valid only as long as client is enrolled in Medi-Cal. Family has not

signed CCS program papers; therefore, client will not be enrolled in CCS with loss of Medi-Cal coverage."

5. Special Instructions: Removed the following entries from the Special Instructions list: "Please refer to the Denti-Cal manual for billing information" and "Please refer to the Medi-Cal manual for billing information".
6. EPSDT-SS Procedure Codes: Correction to allow EPSDT-SS procedure codes (V5298, Z4300-Z4315 and Z5800-Z5999) to be authorized on a SAR.
7. Modifier Field: Add the Modifier field to the printed SAR so that the modifiers print on the Authorization form.
8. Family Cover Letter (C-51): Correction to the Family Cover Letter (C-51) to add the following text that was inadvertently deleted: "As part of your child's medical care, your doctor may give you a prescription for medicine. When you take this prescription to your pharmacy to get the medicine, show a copy of this letter to the pharmacist."
